

# How It Works

## Family Reach Hospital Partners

Working with oncology social workers at partner hospitals nationwide, we submit, approve and distribute grants for families within one week, using funds allocated to each hospital.

## Out-Of-Network Grants

When families are in need, we answer. Patients who reach out to us directly are connected with our in-house social workers, who assess their need and guide them through the grant process. If they are being treated at a hospital outside of our network, we facilitate the grant directly.

Cancer is the #1 cause of personal bankruptcy in America.

Together, we can fix this.

Family Reach is a 501(c)3 nonprofit organization.
